

## Medium Term Planning

### Year 4

Autumn 2024 Second Half Term

English	Mathematics
We will begin this term focusing on learning how to write a wishing tale. This will use a range of narrative features and allow children the opportunity to further explore descriptive language and techniques. Our non-fiction unit will focus on writing a set of instructions and will be a fantastic unit to use in a cross curricular approach.	Year 4 will begin by learning about a range of measurements, focusing on length and perimeter. This will encompass equivalent values, adding and subtracting and finding the perimeter. We will then focus on methods of multiplication and division, strengthening our understanding of the times tables.
Art & Design	Computing
Year 4 will learn how to create a collage and produce a range of pieces which show personal expression and style. We will explore the works of Henri Matisse and imitate his techniques to create our own artwork.	Year 4 will be exploring internet research this half term. We will understand how results are selected and ranked by search engines and develop our internet research skills by using filters.
Design & Technology	Geography
Year 4 will be visiting the cookery room again at the beginning of this half term. We will develop our confidence of reading and following a recipe. We will also adapt a recipe by adding extra ingredients. During the spring term, Year 4 will use their science learning from this half term to create a functioning torch.	This half term Year 4 will be engaging with the topic of rivers and mountains. We will start this topic by exploring mountains and rivers in the UK and developing our knowledge of the key physical and human geographical features of these locations. We will then expand and explore applying this knowledge to worldwide locations.
History	Music
Next half term, we will focus on learning about the Vikings and be able to place them chronologically on a timeline. We will use a range of resources, including pictures, artefacts and terminology to decipher who they were. We will debate why sources might contradict each other.	This half term pupils will continue to play the chime bar, with the aim of developing our confidence, accuracy and control whilst playing as part of an ensemble. We will develop our knowledge of notation and key music terminology. We are also looking forward to rehearsing for our Christmas performance!
Personal Social Health & Economics Education (PSHE)	Physical Education (PE)
Our topic for this half term is health and wellbeing. We will explore taking responsibility for the emotions that we feel to develop our emotional maturity and discuss developing a growth mindset. We will identify calming and relaxation strategies that we could use to support our wellbeing and explore dental hygiene.	Year 4 are very excited about going swimming and learning all about water safety. They will learn a range of strokes and build on their stamina and amount of distance they can cover. We will also be engaging in gymnastics sessions, which will focus on creating balances and routines.
Religious Education (RE)	Science
In RE this half term, we will be exploring the question 'What makes some texts scared?'. Pupils will explore the different ways scriptures are used and how this demonstrates their value. They will experience how the Guru Granth Sahib is treated like royalty.	Our unit this half term is electricity. We will investigate common appliances and learn about conductors and insulators. We will deep dive into electrical circuits and explore cells, wires, bulbs, switches, and buzzers.
In KS2 we learn French in our Modern Foreign Languages Curriculum (MFL)	
Children will continue to learn a range of vocabulary associated with school life, such as items in a pencil case. They will practise their verbal skills, reading skills and be able to write some words and phrases.
