

# Reception

## Communication & Language

### Autumn

### Spring

### Summer

#### Reception

#### Listening, Attention & Understanding:

**As communicators, we will use our Communication, Resilience and Respect superpowers to...**

Listen carefully to our teachers and friends during carpet time and play.

Show good listening by having our eyes looking, ears listening and lips waiting.

Follow simple instructions during our play and learning.

Join in with repeated, predictable parts of stories and rhymes.

Listen to stories and talk about what we notice – characters, pictures or events.

Begin to retell very familiar stories with support

Join in with simple familiar nursery rhymes and songs, using some words and actions.

Recall and talk about simple nursery rhymes we know.

Follow instructions with more than one step.

#### Speaking:

**As speakers, we will use our Communication, Collaboration and Courage superpowers to...**

#### Listening, Attention & Understanding:

**As communicators, we will use our Communication, Resilience and Respect superpowers to...**

Listen for longer and with more focus during stories and information books, even when there are no pictures.

Follow longer instructions with two or more parts during our classroom routines and learning.

Talk about the important parts of a story – what happened first, next and last – and explain the message or meaning in my own words.

Stay focused during group discussions, listening to different ideas and sharing my own.

Answer “how” and “why” questions to show our understanding.

Ask our own questions to find out more about what we notice.

Take turns to listen to our friends' ideas, respond to them and build on what they say adding our own thoughts

Use new topic words when talking about what we notice and understand (e.g., germinate, seedling, roots, stem,

leaves, fasting, festival, Easter) taught through stories, rhymes and experiences.

Tell whole familiar stories using pictures to help us remember the order.

#### Listening, Attention & Understanding:

**As communicators, we will use our Communication, Resilience and Respect superpowers to...**

Listen carefully and keep our attention for longer in whole class and small group discussions even when there are distractions and join in at the right time. Understand and talk about ideas from different stories.

Show I understand by asking questions or explaining my thinking.

Learn and use new vocabulary linked to our summer themes (e.g., *life cycle, chrysalis, pollen, hive, journey, environment, holiday, water, change*) by using pictures, real objects, models and outdoor exploration. Listen carefully to stories, rhymes and information books, remembering and talking about the important parts.

Process and follow three-step instructions during learning and play (e.g., “Put your magnifying glass away, wash your hands, then come to the carpet”). Retell familiar stories in the correct order, including key events and characters.

Tell complete short stories with dialogue using puppets, small world or role-play props.

Begin to create our own endings or imaginative twists when retelling stories.
